Discussion Highlights

0. General comments:

- Request for supplementary metrics
- Clearer assessment of impact of noise actions
- Consider impacts of ACP (especially PBN)

1. Reporting :

- Visual simplifications
- Exec summary with links to support directing to further info

2. Website data :

- Website user interface needs improvement to enable data to be more easily accessed and more focused on
- More instantaneous/recent data

Discussion Highlights

3. Tools :

- Need less delay on tools – real time suggested
- Review and update the online tools to improve user experience

4. Audits :

- Support for external and independent auditors

5. Ongoing engagement :

- Need to access a wider range of stakeholders – especially school pupils and college students
- Some feeling that some of the actions were too detailed
