

Authorised Vehicle Area EV Charging

UPDATE – JANUARY 2024

The EV charging trial will be extended to drivers who use the AVA from Wednesday 3 January 2024.

To use the service, please scan the QR code to download the E-GAP app and register. When you need a recharge, please book a timeslot. Your slot will be confirmed, and you will be asked to park in an allocated bay adjacent to the eHub at the time of your booking.

A limited number of slots will be available each day; if a booking is not possible, you will be offered a slot on the following day. More detailed information will be available on www.heathrow.com/ava from 2 January 2024.

The eHub in the Authorised Vehicle Area (AVA) is still the base for the mobile EV charging trial activities. It is for the exclusive use of E-GAP authorised personnel.

A separate project is being planned to install rapid charging for EV users in the AVA in the long term.
