

COMMUTE SMARTER, GREENER, HEALTHIER

COLLEAGUE GUIDE

Make sure your colleagues know about Way2Go, here to help Team Heathrow find better ways to get to work. Plus, provide guidance on the upcoming implementation of the Ultra Low Emission Zone (ULEZ) in August and how it impacts you.

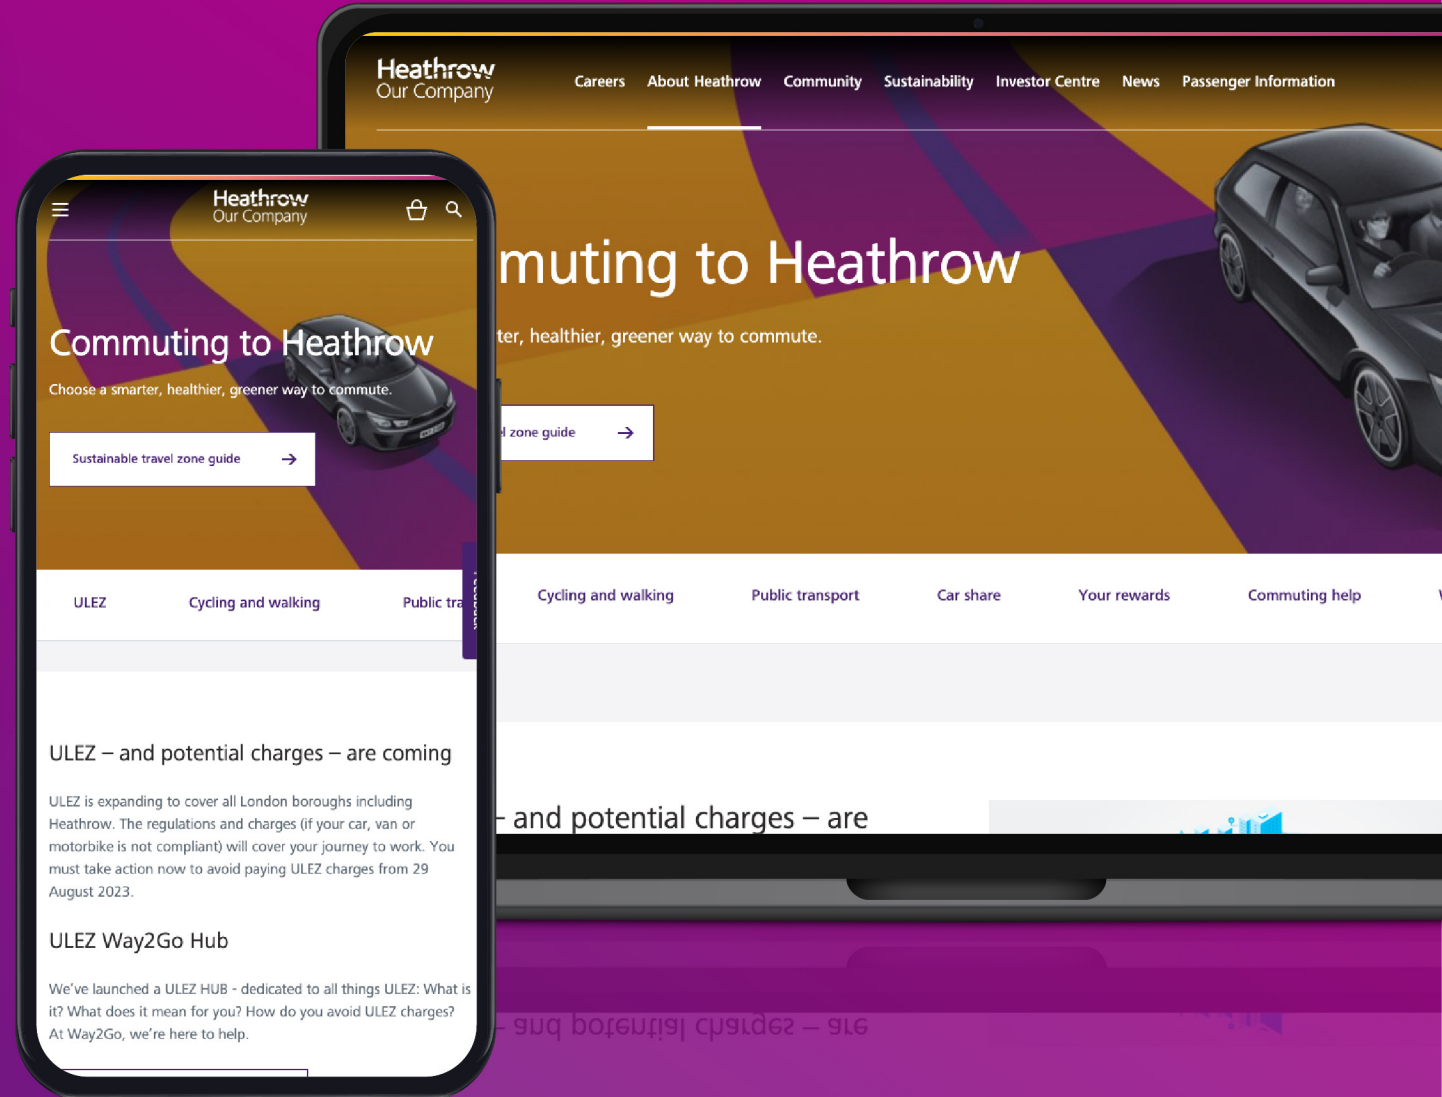

Welcome

The [Commuting to Heathrow website](#) is packed with useful information on commuting to Heathrow, from how to save money to being ready for ULEZ and the win-wins of choosing a smarter, greener, and healthier Way2Go.

We've picked out some highlights here to help you share with your colleagues.

For more information head to [heathrow.com/commuter](https://www.heathrow.com/commuter) or come along to one of our Way2Go roadshows – details on the final page.

Get ready for ULEZ

Anyone driving to work could be affected by ULEZ – London's Ultra Low Emission Zone.

Heathrow will be inside the expanded ULEZ from 29 August 2023, so commuting by car, van or motorbike could mean a potential £12.50 daily charge. We've launched a dedicated ULEZ Way2Go Hub, which is a one-stop-shop for everything ULEZ-related.

Save money and meet new people

Did you know that car sharing could save your colleagues an average £1,000 a year?

Team Heathrow colleagues can join the Heathrow Community for free and share the costs of driving to work. Colleagues that car share benefit from priority parking at Heathrow-managed car parks and monthly prize draws – so it makes sense to share the ride.

You can also reassure your colleagues that **they don't need to be drivers to join our car-share scheme**. Anyone can sign up.

Discover convenient public transport

Heathrow's Sustainable Travel Zone is the public transport network serving the airport, which continues to grow.

Here's a fun fact: roughly half of Team Heathrow live **within 15 minutes** of a direct public transport link to the airport.

Help your colleagues make the switch by pointing them to our **Sustainable Travel Zone Colleague Guide**. It's updated every week with the latest public transport improvements and colleague discounts.

Make a healthier commute easier and cheaper

For those that are able to, walking or cycling to work is a brilliant way to boost our health and wellbeing and save money on our commute.

Our Cycle Hub at the Heathrow Academy makes it easier by providing cycle repairs and colleague discounts on bikes and accessories. We also publish maps of cycle routes around Heathrow.

Feel good about commuting

We know there's no 'one-size-fits-all' for commuting to work, so the **Commuting to Heathrow website** covers all bases.

From reducing congestion and energy use to saving money, boosting health, and achieving our sustainable travel ambitions, you will find the facts and encouragement needed to help us make Team Heathrow commuting smarter, greener, and healthier.

Find out more

If you or your colleagues have any questions for us about smarter commuting, our virtual **Way2Go Roadshows** take place on the first **Wednesday of every month from 1pm to 3pm on Teams**. There is also a series of live roadshows in the terminals and elsewhere. Look out for posters to see when we're coming your way.

You can get the latest travel and commuting news direct to your inbox with our Way2Go newsletter.
